GFMD REPORT FROM January 2024 till December 2025

Communication On Engagement

To our Stakeholders,

I am pleased to reconfirm that Global Forum for Media and Development supports the ten principles of the Global Compact with respect to human rights, Labour, environment and anti-corruption. With this communication, we express our intent to advance those principles within our sphere of influence. We are committed to making the Global Compact and its principles part of the strategy, culture and day-to-day operations of our company, and to engaging in collaborative projects which advance the broader development goals of the United Nations, particularly the Sustainable Development Goals. Organization Name will make a clear statement of this commitment to our stakeholders and the general public.

The reason why we did not submit a Communication on Progress in the last years is that changes in administration department. We recognize that a key requirement for participation in the Global Compact is the annual submission of a Communication on Engagement (COE)that describes our company's efforts to implement the ten principles. Sincerely yours,

Mona El-Saghir

In a special gesture of appreciation, we celebrate today an exceptional figure Ambassador MONA OMAR

In a special gesture of appreciation, we celebrate today an exceptional female figure who has contributed immensely to Egyptian diplomacy and women's rights. Ambassador [MONA OMAR], who chaired the International Relations Committee at the National Council for Women, has left an indelible mark through her tireless efforts in enhancing Egyptian women's standing on the international stage. Her Excellency has distinguished herself with a unique personality that combines professional excellence with remarkable humility, and has been known for her refined humanity that earned her the love and respect of all who worked with her. Today, we present her with our deepest gratitude for her contributions during her chairmanship of the committee, and we share together as a team of the committee, moments of such a wonderful celebration.

<u>Protecting Our Coastal Environment - An Inspiring Youth Initiative 29</u> <u>August 2025</u>

As part of our commitment to environmental protection and preserving the beauty of Egypt's coastline, a dedicated group of young leos Clubs members from District 352 Egypt organized an outstanding environmental initiative in Lavista Village, North Coast.

This meaningful volunteer initiative involved a comprehensive beach cleanup, removing plastic waste, cigarette butts, and other pollutants that harm our marine ecosystem. Through this productive collective effort, we emphasize the crucial role of youth in building a more sustainable future that preserves our natural environment.

These efforts reflect the growing environmental awareness among Egyptian youth and their belief in the necessity of collective action to protect our natural treasures for future generations. They also highlight the vital role that civil society organizations like Lions Club play in promoting a culture of environmental responsibility.

Together, we can make a difference - one beach, one community, and one generation at a time.
